

# SOFTWARE TESTING RESUME

**[Your Full Name]**

 +91-XXXXXXXXXXXX |  your.email@example.com

 City, State, Country | [LinkedIn URL] | [GitHub URL or Portfolio Website]

## PROFESSIONAL SUMMARY

Detail-oriented and analytical Software Test Engineer with over [X] years of experience in manual and automated testing. Proficient in SDLC, STLC, and agile methodologies. Skilled in identifying software issues, writing test cases, and using testing tools such as Selenium, JIRA, and Postman. Proven ability to improve product quality and enhance user satisfaction through thorough testing and problem-solving.

## **SKILLS**

- Testing Types: Manual Testing, Automation Testing, Regression, Smoke, Sanity, UAT, API Testing
- Testing Tools: Selenium WebDriver, TestNG, JUnit, JIRA, Postman, SoapUI
- Languages: Java, Python, SQL
- Frameworks: Selenium (POM, Data-Driven), TestNG, Maven
- Databases: MySQL, Oracle
- Version Control: Git, GitHub
- CI/CD Tools: Jenkins
- Others: Agile/Scrum, Bug Tracking, Test Case Management

## **PROFESSIONAL EXPERIENCE**

## Software Test Engineer

ABC Technologies, Bangalore | Jan 2022 – Present

- Analyzed business requirements and prepared detailed test plans and test cases.
- Executed test cases and identified bugs; logged and tracked them using JIRA.
- Developed and maintained automation scripts using Selenium WebDriver and TestNG.
- Participated in sprint planning, daily stand-ups, and retrospectives.
- Conducted API testing using Postman and validated responses against expected results.
- Contributed to a 25% reduction in post-release bugs over two quarters.

## QA Intern

XYZ Solutions, Pune | Jun 2021 – Dec 2021

- Assisted in creating test scenarios and test data for web applications.
- Executed manual tests and documented the test results.
- Reported bugs to the development team and retested fixes.
- Gained hands-on experience with Selenium and Postman.

## **EDUCATION**

Bachelor of Technology in Computer Science

XYZ University, 2017 – 2021

CGPA: 7.8/10

## **CERTIFICATIONS**

- ISTQB Certified Tester – Foundation Level
- Selenium WebDriver with Java – Udemy
- API Testing with Postman – Coursera

# **PROJECTS**

## **E-Commerce Web Application Testing**

- Created test cases and automation scripts for login, cart, and payment features.
- Tools used: Selenium, TestNG, MySQL, JIRA

## **API Testing for a Weather App**

- Tested REST APIs for accuracy and reliability using Postman.
- Validated JSON responses and handled positive/negative test scenarios.

# **PERSONAL ATTRIBUTES**

- Strong problem-solving skills

- Good communication and teamwork
- Quick learner and adaptable to new technologies
